INDEX

ABLES, M. F. and BENJAMIN, R. M. Thalamic relay nucleus for taste in albino rat, 376
Activity in motor nerve terminals, 171
Adaptation and stretch responses, 257
AMES, A., III and GURIAN, B. S. Measurement of function in an *in vitro* preparation of mammalian central nervous tissue, 676
——. See DE ROUGEMONT, J., 485
Anterior cingulate stimulation, 445
Antidromic activity in motor nerves, 453
ARDEN, G., GRANIT, R., and PONTE, F. Phase of suppression following each retinal b-wave in flicker, 305
Auditory cortex activity, 87, 363, 667
Axons, septate giant, 618

Behavior and frontal ablation, 471
—— and prepyriform cortex, 111
BENJAMIN, R. M. See ABLES, M. F., 376
BLOMQUIST, A. J. See MILES, R. C., 471
Blood pressure and orbital cortex, 211
BOMAN, K. K. A. See HENSEL, H., 564
Brain stem, respiratory neurons in, 1, 14, 27
—— —— inhibition, 269
BRINLEY, F. J., JR., KANDEL, E. R., and MARSHALL, W. H. Effect of gamma-amino butyric acid (GABA) on K^{42} outflux from rabbit cortex, 246
BROOKS, C. McC. See KOIZUMI, K., 421
BURES, J. and BURESOVÁ, O. Activation of latent foci of spreading depression in rats, 225
BURESOVÁ, O. See BURES, J., 225
BURNS, B. D. and SALMOIRAGHI, G. C. Repetitive firing of respiratory neurones during their burst activity, 27
——. See Salmoiraghi, G. C., 2, 14

CARPENTER, M. B., CORRELL, J. W., and HINMAN, A. Spinal tracts mediating subthalamic hyperkinesia. Physiological effects of selective partial cordotomies upon dyskinesia in rhesus monkey, 288
Central nervous system and skin potential waves, 448
Cerebrospinal fluid from choroid plexus, 485
CHAMBERS, R. M. and SIMCOCK, J. P. Postural reflexes in forelimb of toad, *Bufo marinus*, 54
Choroid plexus, fluid formed by, 485
CHOU, S. N. See LI, C.-L., 592
COLLINS, W. F. and RANDT, C. T. Midbrain evoked responses relating to peripheral unmyelinated or 'C' fibers in cat, 47
Cord response to skin receptors, 197
Cordotomy, effect of, on dyskinesia, 288
CORRELL, J. W. See CARPENTER, M. B., 288
Cortex, association, auditory response in, 87
——, auditory, D.C. potential changes from, 667
——, ——, evoked responses in, 363
——, ——, and frequency discrimination, 321
——, ——, polarographic studies of, 350
——, cerebral, spreading depression in, 432
——, frontal, epileptogenic lesions in, 552
——, motor, response to stimulation of, 516
——, occipital, and eye movements, 636
——, orbital, and blood pressure, 211
——, prepyriform, and behavior, 111
——, ——, repetitive stimulation of, 382
——, visual, responses in, 363, 592, 602
Cortical evoked responses, 363
—— polarographic studies, 350
—— response to auditory stimulation, 87
Corticospinal tract, small fibers in, 315

DEANE, H. W. See FORBES, A., 62
Deficits, behavioral, after frontal ablation, 471
DEMETRESCU, M. See STERIADE, M., 602
Dendrites and spreading depression, 432
DE ROUGEMENT, J., AMES, A., III, NESBETT, F. B., and HOFMANN, H. F. Fluid formed by choroid plexus. A technique for its collection and a comparison of its electrolyte composition with serum and cisternal fluids, 485
DIECKE, F. P. J. See WILSON, V. J., 144, 659
DO CARMO, R. J. Direct cortical and recruiting responses in postnatal rabbit, 496
Dyskinesia, midbrain, 534
——, spinal tracts mediating, 288

Electroencephalogram of "theta" rhythm, 403
Electroretinogram and spectral sensitivity, 62
ELLINGSON, R. J. and WILCOTT, R. C. Development of evoked responses in visual and auditory cortices of kittens, 363
End-plate potential and end-plate current, 397
Epileptogenic lesions in frontal cortex, 552

Evoked potentials from ventral tegmentum, 47
Extracallosal delayed responses, 188
Eye movements, evoked, 583, 636

Facilitation of evoked eye movements, 583
Flicker, suppression of, 305
Fluid formed by choroid plexus, 485
Foci of spreading depression, 225
FORBES, A., FOX, S., MILBURN, N., and DEANE, H. W. Electroretinograms and spectral sensitivities of some diurnal lizards, 62
FOX, S. See FORBES, A., 62
FREEMAN, W. J. Correlation of electrical activity of prepyriform cortex and behavior in cat, 111
——. Repetitive electrical stimulation of prepyriform cortex in cat, 383
Frequency discrimination and auditory cortex, 321
Frontal lesions and behavioral deficits, 471
FULTON, JOHN FARQUHAR, 1899–1960, 346
Function of small corticospinal fibers, 315

Gamma-amino butyric acid and neuron stretch receptor, 505
—— and potassium outflux, 237
GERNANDT, B. E. and GILMAN, S. Interactions between vestibular, pyramidal, and cortically evoked extrapyramidal activities, 516
—— and ——. Vestibular and propriospinal interactions and protracted spinal inhibition by brain stem activation, 269
GILMAN, S. See GERNANDT, B. E., 269, 516
GLASER, G. H. See PARTRIDGE, L. D., 257
GRANIT, R. See ARDEN, G., 305
GREEN, J. D., MAXWELL, D. S., SCHINDLER, W. J., and STUMPF, C. Rabbit EEG "theta" rhythm: its anatomical source and relation to activity in single neurons, 403
GUMNIT, R. J. D.C. potential changes from auditory cortex of cat, 667
GURIAN, B. S. See AMES, A., III, 676

MILES, R. C. and BLOMQUIST, A. J. Frontal lesions and behavioral deficits in monkey, 471
Muscles, digital, and stretch reflex, 54

NAKAHAMA, H. Cerebral response in somatic area I of ipsilateral somatic II origin, 74
Nerve, cutaneous sensory, afferent impulses in, 564
——, motor, antidromic activity in, 453
——, ——, facilitation and antidromic discharges in, 171
——, optic, action potentials of, 676
Nerve-muscle fiber, action potential in, 646
Nervous tissue, isolated, 676
NESBETT, F. B. See DE ROUGEMONT, J., 485

Neuromuscular junction action potential, 646
Neuron excitability and hypothermia, 421
——, stretch receptor, and GABA, 505
NEWMAN, P. P. and WOLSTENCROFT, J. H. Influence of orbital cortex on blood pressure responses in cat, 211

OCHS, S. and HUNT, K. Apical dendrites and propagation of spreading depression in cerebral cortex, 432
OGATA, M. and WRIGHT, E. B. Intracellular recording of neuromuscular junction action potential in single isolated nerve-muscle fiber, 646
Optic nerve, action potentials of, 676
Orbital cortex and blood pressure, 211
ORTIZ-GALVIN, A. See LI, C.-L., 592
Oxygen deprivation, effect of, on auditory cortex, 350

PARTRIDGE, L. D. and GLASER, G. H. Adaptation in regulation of movement and posture. A study of stretch responses in spastic animals, 257
Photic stimulation, intermittent, 602
POIRIER, L. J. Experimental and histological study of midbrain dyskinesias, 534
PONTE, F. See ARDEN, G., 305
Postnatal response, 496
Postsynaptic electrogenesis, 618
Postural reflexes in forelimb, 54
Potassium outflux and GABA, 237
—— —— during spreading depression, 246
Potential, triphasic, in volume conductors, 132
Precentral effects on motoneurons, 154
Prepyriform cortex and behavior, 111
—— ——, repetitive stimulation of, 382
PRESTON, J. B. and WHITLOCK, D. G. Precentral facilitation and inhibition of spinal motoneurons, 154
PRIBRAM, K. H. See STAMM, J. S., 552

RANDT, C. T. See COLLINS, W. F., 47
Recurrent spinal conditioning, 144
Reflex, monosynaptic, and facilitation and inhibition, 154
——, postural, in forelimb, 54
Respiratory neurons in brain stem, 1, 14, 27
Response, auditory, in association cortex, 87
——, cerebral, in somatic I, 74
——, cord, to skin receptors, 197
——, extracallosal delayed, 188
——, postnatal, 496
——, stretch, in spastic animals, 257
Retina, action potentials of, 676
Retinal b-wave and flicker, 305
RICE, E. A. Polarographic studies of cat's auditory cortex, 350
ROONGTAM, L. and WANG, G. H. Spontaneous variations of skin potential in footpads of normal, striatal and spinal cats, 448
RUTLEDGE, L. T. and KENNEDY, T. T. Extracallosal delayed responses to cortical stimulation in chloralosed cat, 188

TABLE OF CONTENTS

NO. 1, JANUARY 1960

Announcements 1

Localization and patterns of discharge of respiratory neurones in brain-stem of cat. G. C. SALMOIRAGHI AND B. DELISLE BURNS 2

Notes on mechanism of rhythmic respiration. G. C. SALMOIRAGHI AND B. DELISLE BURNS 14

Repetitive firing of respiratory neurones during their burst activity. B. DELISLE BURNS AND G. C. SALMOIRAGHI 27

Midbrain evoked responses relating to peripheral unmyelinated or 'C' fibers in cat. WILLIAM F. COLLINS AND CLARK T. RANDT 47

Postural reflexes in forelimb of toad, *Bufo marinus*. ROGER M. CHAMBERS AND JONATHAN P. SIMCOCK 54

Electroretinograms and spectral sensitivities of some diurnal lizards. A. FORBES, S. FOX, N. MILBURN, AND H. W. DEANE 62

Cerebral response in somatic area I of ipsilateral somatic II origin. HIROSHI NAKAHAMA 74

Auditory response fields in association and motor cortex of cat. RICHARD F. THOMPSON AND RONALD M. SINDBERG 87

Necrology 106

Reviews 106

Manuscripts accepted for publication 110

NO. 2, MARCH 1960

Correlation of electrical activity of prepyriform cortex and behavior in cat. WALTER J. FREEMAN 111

Properties of thin generators pertaining to electrophysiological potentials in volume conductors. ALEXANDER MAURO 132

Distribution of recurrent facilitation and inhibition in cat spinal cord. VICTOR J. WILSON, WILLIAM H. TALBOT, AND FRIEDRICH P. J. DIECKE 144

Precentral facilitation and inhibition of spinal motoneurons. JAMES B. PRESTON AND DAVID G. WHITLOCK 154

Neuromuscular facilitation and antidromic discharges in motor nerves: their relation to activity in motor nerve terminals. GERHARD WERNER 171

Extracallosal delayed responses to cortical stimulation in chloralosed cat. L. T. RUTLEDGE AND THELMA T. KENNEDY 188

Cord cells responding to touch, damage, and temperature of skin. PATRICK D. WALL 197

Influence of orbital cortex on blood pressure responses in cat. P. P. NEWMAN AND J. H. WOLSTENCROFT 211

Notices 218

Reviews 220

Manuscripts accepted for publication 224

NO. 3, MAY 1960

Activation of latent foci of spreading depression in rats. J. Bureš and O. Burešová 225

Effect of gamma-amino butyric acid (GABA) on K^{42} outflux from rabbit cortex. F. J. Brinley, Jr., E. R. Kandel, and Wade H. Marshall 237

Potassium outflux from rabbit cortex during spreading depression. F. J. Brinley, Jr., E. R. Kandel, and Wade H. Marshall 246

Adaptation in regulation of movement and posture. A study of stretch responses in spastic animals. Lloyd D. Partridge and Gilbert H. Glaser 257

Vestibular and propriospinal interactions and protracted spinal inhibition by brain stem activation. Bo E. Gernandt and Sid Gilman 269

Spinal tracts mediating subthalamic hyperkinesia. Physiological effects of selective partial cordotomies upon dyskinesia in rhesus monkey. Malcolm B. Carpenter, James W. Correll, and Alanson Hinman 288

Phase of suppression following each retinal b-wave in flicker. Geoffrey Arden, Ragnar Granit, and Francesco Ponte 305

Autonomic function of some small fibers in corticospinal tract of cat. Kenan Umar and G. H. Wang 315

Function of auditory cortex of cat in frequency discrimination. Richard F. Thompson 321

Necrology 335

Announcements 337

Reviews 339

Manuscripts accepted for publication 344

NO. 4, JULY 1960

John Farquhar Fulton, 1899–1960 346

Polarographic studies of cat's auditory cortex. Edward A. Rice 350

Development of evoked responses in visual and auditory cortices of kittens. Robert J. Ellingson and Robert C. Wilcott 363

Thalamic relay nucleus for taste in albino rat. Murray F. Ables and Robert M. Benjamin 376

Repetitive electrical stimulation of prepyriform cortex in cat. Walter J. Freeman 383

Further analysis of relationship between end-plate potential and end-plate current. Akira Takeuchi and Noriko Takeuchi 397

Rabbit EEG "theta" rhythm: its anatomical source and relation to activity in single neurons. J. D. Green, D. S. Maxwell, W. J. Schindler, and C. Stumpf 403

Effect of hypothermia on excitability of spinal neurons. Kiyomi Koizumi, J. Ushiyama, and Chandler McC. Brooks 421

Apical dendrites and propagation of spreading depression in cerebral cortex. S. Ochs and K. Hunt 432

Effects of anterior cingulate stimulation. W. Lewin and C. W. M. Whitty 445

Spontaneous variations of skin potentials in footpads of normal, striatal and spinal cats. Roongtam Ladpli and G. H. Wang 448

Generation of antidromic activity in motor nerves. Gerhard Werner 453

Announcements 462

Necrology—correction 462

Reviews 463

Manuscripts accepted for publication 470

NO. 5, SEPTEMBER 1960

225 Frontal lesions and behavioral deficits in monkey. RAYMOND C. MILES AND ALLEN J. BLOMQUIST 471

237 Fluid formed by choroid plexus. A technique for its collection and a comparison of its electrolyte composition with serum and cisternal fluids. JACQUES DE ROUGEMONT, ADELBERT AMES III, FRANCES B. NESBETT, AND HELMUT F. HOFMANN 485

246 Direct cortical and recruiting responses in postnatal rabbit. ROMUALDO JOSÉ DO CARMO 496

257 Membrane changes in crayfish stretch receptor neuron during synaptic inhibition and under action of gamma-aminobutyric acid. S. HAGIWARA, K. KUSANO, AND S. SAITO 505

269 Interactions between vestibular, pyramidal, and cortically evoked extrapyramidal activities. BO E. GERNANDT AND SID GILMAN 516

288 Experimental and histological study of midbrain dyskinesias. LOUIS J. POIRIER 534

305 Effects of epileptogenic lesions in frontal cortex on learning and retention in monkeys. J. S. STAMM AND K. H. PRIBRAM 552
